# ADDICTION RESEARCH AND CLINICAL PRACTICE

American Psychological Association  
119th Annual Meeting

August 4–7, 2011 • Washington, DC

National Institute on Drug Abuse – NIH/DHHS  
in collaboration with

National Institute on Alcohol Abuse and Alcoholism – NIH/DHHS  
and

Division of Psychopharmacology and Substance Abuse – APA [28]  
Society of Addiction Psychology – APA [50]

## About the National Institute on Drug Abuse

The mission of the National Institute on Drug Abuse (NIDA) is to lead the nation in bringing the power of science to bear on drug abuse and addiction. This charge has two critical components. The first is strategic support and conduct of basic, clinical, and applied research across a broad range of disciplines, from genetics and neurobiology to behavioral and social science. The second is ensuring the rapid and effective dissemination and use of research results to improve prevention and treatment, and inform policy. Information about NIDA research, programs, and events is accessible through NIDA's website at [www.drugabuse.gov](http://www.drugabuse.gov).

A wide variety of materials is available at the NIDA exhibit at Booth 345 in the APA Exhibit Hall.

## About NIDA's Collaborators

### National Institute on Alcohol Abuse and Alcoholism

The National Institute on Alcohol Abuse and Alcoholism (NIAAA) supports and conducts behavioral and biomedical research on the causes, consequences, treatment, and prevention of alcoholism and alcohol-related problems. NIAAA funds more than 90 percent of the alcohol abuse and alcohol addiction research in the United States. NIAAA is one of 24 grant-making Institutes and Centers that comprise the National Institutes of Health (NIH), the principal biomedical research agency of the Federal Government. For information on funding opportunities and ongoing activities at NIAAA, please visit our website at [www.niaaa.nih.gov](http://www.niaaa.nih.gov).

### American Psychological Association (APA), Division of Psychopharmacology and Substance Abuse (28)

The APA Division of Psychopharmacology and Substance Abuse focuses on the advancement of knowledge regarding the behavioral effects of drugs and includes basic psychopharmacology research, the determinants and treatment of substance abuse, and the clinical uses of centrally active drugs.

### American Psychological Association, Society of Addiction Psychology (50)

The APA Society of Addiction Psychology promotes advances in research, professional training, and clinical practice addressing the broad range of addictive behaviors, including problematic use of alcohol, nicotine, and other drugs, as well as disorders involving gambling, eating, sexual behavior, and spending.

## CONTINUING EDUCATION

Sessions offering CE credit for psychologists have been approved by the APA's Office of Continuing Education in Psychology (CEP) and the Continuing Education Committee (CEC). The CEP Office and the CEC maintain responsibility for the delivery of the programs.

Sessions indicated with the Division 50 logo have been approved for CE credits. Division 50 is approved by the APA.

### **NIDA and NIAAA Practitioners' Forum**

(Sponsored by Divisions 28, 50, 7, 12, 18, 20, 25, 27, 38, 40, 49, 52, 55, 56, and APAGS)

Friday, August 5, 2011

Walter E. Washington Convention Center, Room 103A

2:00 p.m.–3:50 p.m.

Clinical and nonclinical psychologists, including those who deal with drug and alcohol abuse issues as a primary focus or a secondary issue, are invited to a forum with NIDA and NIAAA research program representatives. This is a special opportunity for psychologists to have input on future NIDA and NIAAA directions to ensure that NIH research provides the information and tools that psychologists in practice need to maximize effective identification, assessment, prevention, and treatment of substance abuse, and to improve clinical practice and services, and professional training related to the addictions. Your input is needed!

For more information go to [www.apa.org/divisions/div50/](http://www.apa.org/divisions/div50/). Submit a question or issue in advance to [division50apa@gmail.com](mailto:division50apa@gmail.com) or at the forum.
